**Subject:** RE: Conference with PA

Hi Brian,

This is very good news. CA Regional Water Boards are beginning to use the TST in NPDES permits, to set effluent limits and conduct RP. HI has been implementing it in NPDES permits, for the same purposes, for about two years. If you have any questions regarding permit limits and conditions, I can send you examples of what has worked best in CA, where both median monthly effluent limits and maximum daily effluent limits for chronic toxicity are being set for industrial wastewater, individual industrial stormwater, and POTW permits.

Thanks,  
Robyn

**Subject:** RE: Conference with PA

Folks,

I spoke with PADEP yesterday and they are now comfortable with their path forward on this subject. At PA's request, we no longer need to have this call next Tuesday. I thank you all for your willingness to assist us and PA.

Brian

**When:** Tuesday, May 27, 2014 12:00 PM-1:00 PM (UTC-06:00) Central Time (US & Canada).  
**Where:** 866-299-3188, 218-529-5163#,#

Hello everyone,

I'm sending you this appointment (as I can check EPA schedules) to aid Pennsylvania in talking with EPA about permitting and QA for NPDES. This is to discuss the CFR requirements for WET toxicity testing and the basis of an ATP for the state of PA.

This is at 1 Eastern/12 central/10 Pacific

Call the conference number: 866-299-3188, use this access code: 218-529-5163#,#

Any questions, contact Amy Hackman—

Any schedule changes, contact us both!

Teresa Norberg-King
